ADDITIONAL INFORMATION

The following information provides additional information relating to the management of certain classifications of roads.

1. LOCAL ROADS THAT FORM PART OF THE MUNICIPAL BOUNDARY

Yarriambiack Shire has agreements in place with all adjoining municipalities regarding responsibility for the management and maintenance of these roads.

In each case Yarriambiack Shire accepts responsibility for management and maintenance of specific sections of road and the adjoining municipality accepts responsibility for the balance of these roads.

For all boundary roads, an entry in the column headed “Road Register / Ref to Boundaries of Road” indicates that the section of road forms the boundary between Yarriambiack Shire and the named municipality E.g. YSC-???.

In this register, roads that are managed and maintained by an adjoining municipality are classified under the column heading “Asset Details / Owner” The name of the council denotes which municipality is responsible for management and maintenance of that section of road. Roads for which Yarriambiack Shire is responsible for management and maintenance are shown with the classification “Council”.

2. ARTERIAL ROADS IN BUILT UP AREAS

Arterial roads were previously known as either State Highways or Main Roads. **In rural areas VicRoads is the road authority responsible for these roads.**

Where these roads pass through a built up area there is often a shared responsibility between VicRoads and the Council for maintenance of the assets on the road reserve. The limit of this shared responsibility is usually, but not necessarily, the defined 60 km per hour zone.

In general terms, Vic Roads accepts responsibility for the central traffic lanes and shoulders from back of kerb to back of kerb, or, if there are no kerbs, between drainage lines. Council is responsible for the balance of the road reserve including footpaths. Council also accepts additional responsibility for maintenance of some specific areas within the area controlled by VicRoads, eg maintenance of lawns and garden beds within central median strips.

A demarcation agreement between VicRoads and Council defines the limits of responsibility for management of these roads. The agreement is based on the document “ROAD MANAGEMENT ACT [2004], Code of Practice, OPERATIONAL RESPONSIBILITY FOR PUBLIC ROADS”. Areas where Council accepts additional responsibility are detailed within this agreement.

The arterial Roads that pass through this municipality together with the names of built up areas affected by the demarcation agreement are listed in Table A below.

ALTERNATIVE NAMES FOR ARTERIAL ROADS

In some cases sections of the Arterial Roads are generally known by a name different to the official VicRoads name. Table A lists alternative names that are in general use for sections of arterial roads.
