Details regarding the management of these roads are provided in Council's Road Management Plan and Council's Road Hierarchy.

ADDITIONAL INFORMATION

The following information provides additional information relating to the management of certain classifications of roads.

1. LOCAL ROADS THAT FORM PART OF THE MUNICIPAL BOUNDARY

Yarriambiack Shire has agreements in place with all adjoining municipalities regarding responsibility for the management and maintenance of these roads.

In each case, Yarriambiack Shire accepts responsibility for the management and maintenance of specific sections of road and the adjoining municipality accepts responsibility for the balance of these roads.

For all boundary roads, an entry in the column headed "Road Register / Ref to Boundaries of Road" indicates that the section of road forms the boundary between Yarriambiack Shire and the named municipality E.g. YSC-???

In this register, roads that are managed and maintained by an adjoining municipality are classified under the column heading "Asset Owner" The name of the council denotes which municipality is responsible for the management and maintenance of that section of road. Roads for which Yarriambiack Shire is responsible for management and maintenance are shown with the classification "Council".

2. ARTERIAL ROADS IN BUILT-UP AREAS

Arterial roads were previously known as either State Highways or Main Roads. **In rural areas, Regional Roads Victoria (RRV) (previously VicRoads) is the road authority responsible for these roads.**

Where these roads pass through a built-up area there is often a shared responsibility between RRV and the Council for maintenance of the assets on the road reserve. The limit of this shared responsibility is usually, but not necessarily, the defined 60 km per hour zone.

In general terms, RRV accepts responsibility for the central traffic lanes and shoulders from the back of the kerb to the back of the kerb, or, if there are no kerbs, between drainage lines. Council is responsible for the balance of the road reserve including footpaths. Council also accepts additional responsibility for maintenance of some specific areas within the area controlled by RRV, e.g., maintenance of lawns and garden beds within central median strips.

The agreement is based on the document "ROAD MANAGEMENT ACT [2004] (The Act) and the Code of Practice, OPERATIONAL RESPONSIBILITY FOR PUBLIC ROADS", which forms part of The Act. Areas where Council accepts additional responsibility are detailed within this agreement.

The arterial roads that pass through this municipality together with the names of built-up areas affected by the demarcation agreement are listed in Table A below.

3. ALTERNATIVE NAMES FOR ARTERIAL ROADS

In some cases, sections of the Arterial Roads are generally known by a name different from the official VicRoads name. Table A lists alternative names that are in general use for sections of arterial roads.
